

## Instructions for *Geochimica et Cosmochimica Acta* Hardcopy Review Form - Page One

Manuscript number: \_\_\_\_\_ Authors: \_\_\_\_\_

Short title: \_\_\_\_\_

Reviewer's name (print or type): \_\_\_\_\_

Reviewer's signature: \_\_\_\_\_ Date: \_\_\_\_\_

Please fill in the identification information above. On Page Two, check one and only one option in each field of the *Summary* section, and then put your remarks in the *Comments* section. The *Comments* section is the most important part of your review; there is no need for a checklist, just say whatever you think is important to say for this particular manuscript. For guidelines on *Geochimica* reviews consult *Information for Reviewers* on the editorial office's website ([gca.wustl.edu](http://gca.wustl.edu)) or in the hardcopy version.

Whatever you say on Page Two (*Summary* and *Comments*), including any continuation sheets, will be scanned and posted on the editorial office website, where it will be accessible to the AE and to the authors. Nothing you say on this page will be accessible to the authors. That includes your name: If you want to "sign" your review, and make yourself known to the authors, include your name somewhere in *Comments*.

Please return this completed review form, by mail or fax, to the editorial office at the address at right. If you would like to add additional material, e.g., a data table, figures, excerpts of printed material, send those to the editorial office as well. If, however, you would like to return a hardcopy version of the manuscript with your handwritten annotations, send it to the AE, not to the editorial office.

*Geochimica et Cosmochimica Acta*  
Department of Earth & Planetary Sciences  
Washington University  
One Brookings Drive  
St. Louis, MO 63130-4899, USA

fax: 314-935-8280

If you would like additional copies of this review form, the editorial office will send them on request (phone 314-935-7453, e-mail [office@gca.wustl.edu](mailto:office@gca.wustl.edu)). If you have internet access, however, it would be easier and faster to download and print the PDF-file version of this form from the editorial office website ([gca.wustl.edu](http://gca.wustl.edu)).

Use the space below if you have any confidential comments which you do not want transmitted to the authors. Unless you direct otherwise, however, any such comments will be accessible to the AE.

***Geochimica et Cosmochimica Acta* — Review Form -- Page Two**

See instructions on Page One. Please enter MANUSCRIPT NUMBER here: \_\_\_\_\_

**SUMMARY** - For each question, please select one and only one of the options.

Do you recommend that this manuscript be accepted for publication in *Geochimica*?

- Yes, without change or with revisions essentially at the authors' discretion
- Yes, but only with important substantive modifications (supervised by the AE)
- No, except possibly after major overhaul and ab initio resubmission for review
- No, the quality and/or relevance of this work do not warrant publication
- No, irrespective of intrinsic scientific quality this work lies outside GCA's scope

The overall length of the text in this manuscript is

- About right to describe the work and its significance
- Excessive (for what the authors have to say)
- Insufficient (more explanation, description or documentation is needed)

The amount of display material (tables and figures) is

- About right
- Excessive
- Insufficient

Is proper credit given to prior related work?

- Yes
- No

**Comments** – Please enter your general comments on this manuscript, here and/or on separate sheets as needed.
